Inaugural Season 2016  
Rovinj, Croatia

and old Roman outposts are open for fun-seeking business.

**Monuments of History**  
The city's most recognized landmark, the Church of St. Euphemia, stands as testament to the legend of the martyr and saint after whom the church is named. Euphemia, a young girl in the time of Diocletian, was imprisoned, tortured and literally thrown to the lions for her Christian faith. The day of her death, September 16, AD 304, is honored annually at the church, where her relics are housed in a Roman sarcophagus behind the right-hand altar. Looking down from atop the church's bell tower, which is modeled after the tower of St. Mark's Basilica

**ROVINJ:  
Wonders of History & Nature  
Never Cease**

Once an island and today connected to the Croatian mainland, Rovinj is as delightful a place as you will ever see, an egg-shaped cluster of red-roofed buildings surrounded by water and edged by the greenery of the Istrian coast.

Tuck your camera or smartphone away after taking a flurry of pictures and simply gaze upon the sparkling harbor and up to the imposing St. Euphemia Church, perched on the hill. It is with a deep breath and a slow turn of the head that one can truly appreciate the charms of Rovinj.

Its position on the Adriatic, history reaching back to Roman times, spell under Venetian rule and continuing appeal to artists, gourmands, oenophiles and sporty adventurers who enjoy scuba diving, horseback riding and even zip lining have put

Rovinj on the map and on travelers' best-of-lists.

Taking its role as host ser Rovinj rolls out the welcome mat, sprucing up its multi-star status and delish scrumptious olive oils and patrons seated at umbrella tables. But at its heart, Rovinj is a working fishing town, with casting nets in the morning and processing their catch in the afternoon. Small boats bob in the harbor, the squawk of seagulls and the classic sounds of the sun — usually out in the weather locale — casting over old houses.

Just outside the town's narrow lanes is a country blessed with not only scenery, but interesting things to see. Whether on a saddle, a boat, a picnic table, a hillside or a nature path amid the trees, the rustic landscape
